EXPERIENCE

Full Stack Developer Intern | Solinix Software Solutions, Bangalore (Remote)

Nov 2024 – Mar 2025

Node.js, Express.js, React.js, React Native, Next.js, PostgreSQL, Firebase | Agile / Sprint-based

- Delivered Notifications Screen, Pending Tenant Dashboard & paginated list views for a production React Native property management app — improving owner visibility and reducing tenant follow-up time.
- Built and consumed 10+ RESTful APIs (Node.js / Express.js) — converting static screens into fully dynamic CRUD interfaces across mobile and Next.js admin panel.
- Implemented Firebase Authentication & role-based authorization across full stack — securing both mobile and admin interfaces.
- Resolved 10–15 UI/functional defects via manual testing; documented API endpoints and component architecture.

Frontend Developer Intern | Sedani Digital Pvt. Ltd., Ahmedabad (Remote)

Jul – Sep 2024

JavaScript (ES6+), React.js, DSA | Structured Frontend Training

- Completed structured training in DSA (arrays, linked lists, graphs, DP, recursion) and React.js — skills directly applied in production internship at Solinix.

PROJECTS

AI Assessment Generator (Veda AI) Next.js 15, Node.js, TypeScript, MongoDB, Redis, BullMQ, Socket.io, Google Gemini

[Github](#)

- Architected real-time WebSocket layer using Socket.io to stream assignment status updates (Pending → Processing → Completed), eliminating polling and reducing client-side latency to near-zero.
- Optimised AI response time by ~90% by implementing asynchronous job queuing with BullMQ and Redis (Upstash), replacing 15s blocking requests with sub-200ms API responses.
- Developed a fully type-safe full-stack application using TypeScript across Next.js 15 (App Router) and Express.js; integrated Zustand for state management and deployed on Vercel, Render, MongoDB Atlas, and Upstash.

Bill Manager React.js, Redux Toolkit, Chart.js

[Github](#)

- Built a responsive single-page budgeting application using React.js and Redux Toolkit, supporting 500+ expense entries with near-instant UI updates (<100ms) and zero performance degradation.
- Developed an intelligent bill recommendation engine that analyses remaining budget and surfaces actionable payment suggestions, improving financial decision-making for end users.
- Integrated Chart.js to render dynamic Expense vs. Date visualisations, enabling users to track spending trends and identify budget patterns over time.

WanderVista — Travel & Hotel Booking React.js, Firebase, Context API, Tailwind CSS, Vite

[Github](#)

- Implemented Firebase Authentication (Email/Password and Google OAuth) with async auth state managed via React Context API, enabling instant UI reactivity across navbar and protected routes on login/logout.
- Engineered a scroll-gating access control mechanism that blurs content for unauthenticated users and auto-triggers a login modal on scroll, improving user conversion without redirecting away from the homepage.
- Designed a glassmorphism UI with 6 reusable components and fully responsive layout using Tailwind CSS; deployed to Vercel with ~35% improvement in page load performance.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++, SQL

Frontend: React.js, React Native, Next.js, HTML5, CSS3, Tailwind CSS, Redux Toolkit, Zustand, Chart.js

Backend & DB: Node.js, Express.js, RESTful APIs, PostgreSQL, MySQL, MongoDB, Redis, BullMQ, Socket.io

Auth & Tools: Firebase Auth (Email/Password, Google OAuth), Vercel, Git, GitHub, Vite, Postman, Agile / Scrum

EDUCATION

B.Tech – Computer Science & Engineering | JECRC University, Jaipur

Jul 2021 – Jun 2025

Coursework: DSA, Operating Systems, Computer Networks, OOP, DBMS

ACHIEVEMENTS & LEADERSHIP

- AIR 1036 – TCS CodeVita Season 12 — top 0.5% among 200,000+ global participants; strong algorithmic problem-solving signal.
- Solved 300+ problems across LeetCode, Codeforces, CodeChef & GeeksforGeeks — arrays, graphs, DP, recursion.
- Top 16 Finalist, Ideathon 2K24 (JECRC University) from 500+ peers; Top 10 Team, Smart India Hackathon (College Level).
- Executive, Rhythm Fest — managed logistics for 2,000+ attendees; mentored 50+ students as Executive of JIC Coding Club.
